Summary:

Join us on an unforgettable voyage through one of the most desolate periods in human history as the rulers, conflicts, and cataclysmic societal breakdown of THE DARK AGES are brought to light. At its height in the second century A.D. the Roman Empire was the beacon of learning, power, and prosperity in the western world. But the once-powerful Rome - rotten to the core by the fifth century - lay open to barbarian warriors who came in wave after wave of invasion, slaughtering, stealing, and ultimately, settling. As chaos replaced culture, Europe was beset by famine, plague, persecutions and a state of war that was so persistent it was only rarely interrupted by peace. THE DARK AGES profile those who battled to shape the future, from the warlords whose armies threatened to cause the demise of European society, such as Alaric, Charles the Hammer, and Clovis; to the men and women who valiantly tended the flames of justice, knowledge, and innovation including Charlemagne, St. Benedict, Empress. Theodora and other brave souls who fought for peace and enlightenment. It was in the shadows of this turbulent millennium that the seeds of modern civilization were sown.

Summary:

It began much like the common cold. Yet within a day, fever took over, black swellings the size of baseballs appeared on the neck, and finally a highly contagious bloody cough quickly sealed the victim's fate. During the worst biological disaster in the history of mankind, the so-called black death released an indiscriminate fury which shook the very foundations of human order. Religious hysteria began to break out, and in desperation, frenzied masses scrambled to find a scapegoat. When all was said and done, nearly one-third of Europe's population had been completely wiped out, and devastated survivors were left to contend with a world forever changed, both socially and economically. In this feature-length special, we investigate the origins of this devastating moment in human history and explore the many questions surrounding the terrifying possibility of a modern-day biological threat.

The inevitable occurred in 410 A.D. when Rome, the historic heart of the Empire, was sacked. As the Vandals stormed the city they were shocked at what they found. Gone were the crowds of the Golden Age. An eerie silence greeted the warriors as they wandered the same streets that their ancestors had walked down in chains 150 years earlier. The inhabitants of Rome, with their empire crumbling, had been chased away in the 5th century even though the nightmare of Rome's destiny would not be fulfilled for another 100 years; the glory that was Rome... was of another day.

Summary:

The "Enlightment", which began in France, spread to other countries in Europe and then to America, shifted thinking from reliance on the Church to self reliance . It fostered a change from blind faith to inquiring minds. It encouraged the investigation of new ideas. It gave fuel to both the French and American Revolutions. The Enlightenment may not have left physical evidence behind, like the pyramids of Egypt or the Coliseum of Rome, but it has left an intellectual heritage which is unquestionable in its importance. It is a period of history intrinsically French in its origins but predominately American in its impact. Scholars of the Enlightenment from Yale University and UCLA share their insights in this video.

Yet in 1939, Hitler ended up at war with the country he most admired -- Great Britain and allied to the country he most wanted to colonize -- Russia. How did he end up fighting what was, through his point of view, the wrong war?" -- Case. \The Nazis : the Wild East: One country suffered more than any other from the hand of the Nazis - Poland. 1 videodisc (ca. 89 min.) : sd., col.
[DVD 110 943.086 N2391 2004 I]

Summary:

The Nazis : helped into power: How did the Nazis started? 55 million died in World War 2. Hitler authorized a policy to exterminate the entire people. All this was possible because the Nazis ruled Germany. How could it be that a cultured nation at the heart of Europe allowed such a man and the Nazi party he led to come to power? Leading Nazis explained their success easily. It was inevitable given the superhuman" qualities of their leader, Adolf Hitler but the true reasons for the Nazi's rise to power are not that simple and are much more alarming." -- Case. \The Nazis : chaos and consent: On January 30th 1933, Adolf Hitler became Chancellor of Germany. Chief among those who rejoiced at this were the Nazis storm troopers, the party's paramilitary wing led by Hitler's old party comrade, Ernst Rohm. In the early months of the Nazi reign, German Jews were being violently attacked and books written by Jewish authors were burned. Hitler started inspiring Germans that their country wasn't big enough. Germans were a superior race compared to other nations. Then started his plans to accomplish his dreams for world domination." -- Case.

1 videodisc (ca. 96 min.) : sd., col.
[DVD 112 943.086 N2391 2004 III]

Summary:

The Nazis : the road to Treblinka: Treblinka was a 22-acre transit camp which operated from July 1942 to August 1943 where Jewish Communists and Fifth Columnists were deloused, between trains, before being deported to occupied Russia. The Jews said it was a massive killing factory where between 870,000 to 2,000,000 were killed. According to Jewish survivors, three trains arrived a day, each with four thousand people aboard, all from Warsaw. During the Stalingrad offensive many of the Jews slashed their wrists in despair. Jews arrived and went into two buildings where they undressed, had their hair cut off. Next guards with whips and dogs chased them down a path and into the killing area where

10 gas chambers awaited. Women had their breasts ripped off. A diesel engine from a submarine pumped its exhaust into the death chambers with the whole process taking 2 hours. -- Case. "The Nazis : fighting to the end: Italy was the birthplace of Fascism so an alliance between the Fascist government in Rome and Nazis in Berlin had seemed natural. But on 19th July 1943, the unthinkable happened -- Rome was bombed causing nearly 200,000 Italian soldiers dead or missing. The Italian's chance with Nazi Germany had resulted in nothing but disaster. On the night of 24th July 1943, the Fascist Grand Council met to express its lack of confidence in Mussolini. They voted for the KG to regain control of the armed forces. Benito Mussolini had been the first Fascist dictator, his success an inspiration to Hitler but now the Italians had enough of him. The Italian government imprisoned Mussolini and on October 1943 declared war on its former ally Nazi Germany. How did Hitler rise to power? Many tried to assassinate him but failed. So how did he finally die?" -- Case. **The last of the Mohicans [videorecording]** (c2001). Twentieth Century Fox Home Entertainment 1 videodisc (113 min.) : sd., col. [DVD 484 943.56 L3393 2001]

the dragon (c2017). National Geographic 1 videodisc (47 min.) sd., col. [DVD 1116 951 C4415 2017]

Summary:

Surprisingly, you won't find China's Great Wall among the list of the Wonders of the World. Yet it is one of mankind's most magnificent achievements, its story reaching back beyond historical times. China's Great Wall is a symbol of the turbulent relationship between China and its northern neighbours, which influences the destiny of the Middle Kingdom in every era. The construction of the Wall claimed countless human lives. It extends across peaks and valleys, torrential rivers and vast steppes. Yet it is more than merely a defence. It is a symbol of a division between cultures. Here, agrarian Chinese society; there, a nomadic culture of the herdsmen of the steppes. It is key to our understanding of Chinese history and civilisation. This episode discusses amongst other things the 18th century British efforts to engage in trade with an isolationist China.

Summary:

In 1979, The Ayatollah Khomeini seized power in Iran, unleashed the Islamic revolution, and changed the world

forever. Three decades later, New York Times best-selling author Joel C. Rosenberg brings you a groundbreaking documentary film that takes you inside the three most dramatic movements of our time: the radicals, the reformers, the revivalists; explains the implications of each movement, the importance of each leader, not only through the lenses of politics and economics but through the third lens of Scripture. Today, wars and revolutions define the modern Middle East, and many believe the worst is yet to come. How real and serious is the threat of Radical Islam to American national security eight years after 9/11? Are there any Muslim leaders who oppose the violence of the Radicals and is there any hope that such leaders will come to power in key countries in the Middle East? How can we as Christians help strengthen our brothers and sisters who love Jesus in the Muslim world, and how can we reach out to Muslims here at home?

Distribution
1 videodisc (56 min.) : sd., col.
[DVD 567 956.05 R492 2014]

Summary:

In The Rise of ISIS, Martin Smith (Gangs of Iraq; Beyond Baghdad) draws on in-depth interviews with Iraqi politicians, and American policymakers and military leaders to explore and explain how the Islamic State of Iraq and Syria (ISIS) became a major force so quickly. What does it mean for the U.S. to be back in Iraq, fighting a new war on terror, less than three years after American troops pulled out of the country? Smith delivers a revelatory look at how ISIS grew out of the disaffection of Iraqi Sunnis who were sidelined and targeted by Shia Prime Minister Nouri al-Maliki after the American withdrawal. The film traces how they gained strength in Syria, how they're funded, how they operate, and how, city by city, from Ramadi to Fallujah to Mosul, ISIS swept across Iraq--seizing territory, recording and broadcasting mass executions, and drawing recruits from an estimated 80 countries. With ISIS continuing to take and hold territory in Iraq and Syria despite U.S. and coalition airstrikes, and President Obama's foreign policy legacy hanging in the balance, The Rise of ISIS is the definitive account of how the U.S. has reached this point.
